BM1771 & BM1871 DESIGNED BY BØRGE MOGENSEN

For the third consecutive year, Carl Hansen & Son is expanding its range of outdoor furniture with a set created by one of the most distinctive Danish furniture designers. Børge Mogensen's functionalist mindset is expressed through every detail of the table and benches that can bring family and friends together. After use, it can be folded up so it only requires a minimum of storage space.
