Stackable Glass by Norm is likely to be your new every-day/fine-day/fancy-dinner-day glass. Lovely in it's aesthetics, clever in style and a nice companion by all tables. The mouth-blown glasses are all unique in their own way and available in three different sizes: 18cl, 27cl and 33cl - well suited in sizes for water, juice, wine or beer. While designing the glasses Norm Architects challenged some typical prejudices about practical design.

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design - particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
