

This collection of furnitures and homewares merged the aesthetic of Eastern and Western which created a subtle composition of plywood, ceramic, textile, and aluminium extrusion. "We were very inspired by the ever-changing living environment of young generation in Asia," said by Michael Young. "As the urban living space getting smaller and blended, home is no longer a fixed idea for young customers. This series of furniture and homeware is designed to be fitted in the corners of home and not limited by the function of the place."

The Cascade series and Geometric Corners carpet series are modular system which is easily to be extended or subtracted according to the size of the place. While the sitting system Ellipse series is designed slightly lower and wider to echo to the unique lifestyle of lower level living space. "We hope to create products that interact with the space and free young consumers from The limitation of shrinking-size house."

The technique of 3 dimensional plywood for Ellipse series is the beautiful result of the collaboration with innovative Chinese manufacturer. Crafted using superior-quality wood imported from Germany, this whole wood chair express the of the purity of material and elegance of Asian aesthetic.

ZENS
× Michael Young

www.zenslifestyle.com

A decorative mirror that breaks away from the everyday design of mirrors. The ingenious bending design and the multi-faceted appearance presents a deeper sense of space. This mirror shape not only plays the role of decorating the home, but also uses the reflections to brighten the visual sense of the space. The aluminum frame is sandblasted for a matte texture to make the mirror low-key and calming.

This mirror comes in two sizes: the smaller one with only one bend, and the larger with two bends. It can be used with a small object to quickly brighten up your space.

Michael Young

Zens Design Consultant
Founder of the Michael Young Studio

As a leading figure in the field of international design, Michael Young is a European designer who is now the most authoritative in "China design". Born in Sunderland, England, he graduated from the Department of Product and Furniture Design of Kingston University. He achieved fame with the "Steel Wire Woven Series" and his works have been collected by the Centre Pompidou and the Louvre. He founded Michael Young Studio in Hong Kong, and his designs are concerned with various fields from interior design, industrial design to apparel design. Those works brought him a number of global awards, and are put on display in museums all over the world.

—"All my design works are transcultural; they all show my respect for each brand or culture."
