Product description:

This mirror is a minimalistic free standing two-legged mirror with a good height to fit all needs. Each leg takes the shape of a rhombus which accentuates the detail in the design and serves as a very durable yet light frame for the actual mirror. The larger solid piece of wood at the mirrors base adds a unique sense of individual craftsmanship.

Designer's thoughts:

"The frame of a mirror is often slim, but we gave this mirror a wide piece of wood at the bottom to add weight and substance to it. The proportions of the mirror are designed for it to seem tall and slim." - Herman Studio
