

Product Development Manager

New Works is looking for a skilled Product Development Manager to join our team as soon as possible.

You will be joining a young and rapidly growing design company and will play an important part in shaping the future of New Works by developing new products for our collection together with our design and development team and collaborating designers.

We offer a challenging full-time position in a creative and progressive work environment. You will have freedom with responsibility and the opportunity to grow with the company.

You will be working from our showroom and head office located in historic buildings in Frederiksstad, Copenhagen, right next to the Marble Church. We are a small team working in a relaxed and positive atmosphere with great team spirit.

The position

As Product Development Manager you will be responsible for coordinating product development projects within furniture, design objects and lighting. This entails exploring different perspectives concerning innovation, sustainability, and lifestyle trends, with an understanding of a product's commercial success.

Tasks include:

- Project manage new developments in close collaboration the development team, design team, suppliers, and external designers.
- Oversee prototype development and their compliance to relevant standards.
- Balancing quality, function, and aesthetic expression with the given target price.
- Optimising current products towards higher quality and a better sustainable profile.
- Creating compliance standards for several product types.
- In-house development of products.
- Research of technical solutions and sustainable materials.
- Developing 3D files and 3D visualizations.

We look for

- A minimum of 3 years of relevant work experience.
- Knowledge of manufacturing and supply chain.
- Fluency in English (oral and written).
- Passion for furniture, lighting, and design objects.
- Master's degree in Design Engineering or similar technical academic background.
- The ability to have an overview of a multifaceted project.
- The ability to understand a creative vision and make it a functional product.
- Experienced user of 3D programs such as Fusion360, Solid Works, Rhino, or similar.
- A curious, structured, and meticulous mind-set.
- A positive and determined initiator, who makes things happen.

How to apply

Send your resume along with a short letter of motivation to info@newworks.dk no later than 31st of January 2023. Should you have any questions regarding the position, you can reach us by phone (+45) 72 30 99 99. Please present your documents in English or Danish. We look forward to hearing from you!
