

SILENCE / AW24

SILENCE is our upbringing.

It's grafting 12 hours a day in the local sports club - Passionate about everything inside the institution and the community that surrounds it. It's the on-field and off-field respect and the emotions that connects these energies. SILENCE is for movement and function. It is executed in materials, that embrace exactly this: A core a build from organic jersey and progressive nylon and technical garments, developed for movement.
