Norm Architects have designed a wall clock with clean lines stripped of all unnecessary details. The minimalistic Marble Wall Clock's reminiscent design allows you to read the hour and minutes of time in timeless fashion. "With smartphones replacing traditional clocks in our society we'd like to see a renaissance of the classic wall clock, an object not only beautiful but also highly distinguished. The Marble Wall Clock breathes nostalgia and we've chosen a material combination that speaks to most human senses, something very important as a designer, says Norm's Jonas Bjerre-Poulsen. Marble Wall Clock is presented in two options of finest marble: Black and mat white, both come with hour- and minute hands in lacquered brass. The use of high-quality marble allows for a maximum appreciation of its mosaic and complex structure. Decorative, uncomplicated and made from natural honest materials, Marble Wall Clock is an elegant object that helps you keep up while looking back.

## About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design - particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
