Cast Tea Heater

Product Type

Tea Heater

Production Process

Cut steel sheet, and Casted cup

Dimension (cm / in)

H: 7,6 cm / 3"

Ø: 14,6 cm / 5,7"

Weight item (kg)

0,4 kg

Materials

Powder Coated Steel, Rubber

Colours

Black (9005)

Packaging Type

Brown Box

Packaging Measurement (H * W * D)

13 cm * 13 cm * 9,5 cm

Care Instructions

To clean, simply wipe with a soft dry cloth.
For tougher stains, please use a light soap, such as dishwashing soap, on a wet cotton cloth.

Encouraging a simpler way of life by sparking a newfound appreciation for the elements, the Cast Tea Heater uses fire to heat your brew, re-contextualising the traditional tea-making process with its fuss-free heating method. Taking inspiration from old cast iron elements on traditional gas stoves, the Cast Tea Heater has been simplified in shape with the gas being replaced by a tea light to keep the tea warm for as long as you wish. Made of powder-coated steel, the black textured surface and cross shape strikes a fine balance between contemporary design and nostalgia; its simplicity, in harmony with Menu's deeper ethos to create products with an eternal appeal that endure the changing seasons.

About the Designer

Norm Architects, founded in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, has worked within residential architecture, commercial interiors, industrial design, photography, graphics and art direction since its inception. The name 'Norm' signifies the importance of drawing inspiration from norms and traditions within the fields of architecture and design, which have been refined throughout the centuries. Making it a virtue of focusing on quality, durability and timelessness, Norm's objective is to produce design that applies good materials and craftsmanship while also embodying beauty, traditions, history and more importantly, timeless simplicity.
